SUMMARY

Driven Full-Stack Developer with hands-on agency experience from my internship at Who Owns The Zebra. Passionate about building modern, scalable web applications using the latest technologies. Highly motivated to broaden my knowledge across web development—from exploring new frameworks and tools to mastering modern workflows—while contributing to impactful digital projects.

PROFESSIONAL EXPERIENCE

07/2022 – 08/2024
Gent

Securitas

Security Guard

Executed mobile and static security operations for major clients including UGent, Coca-Cola, and Volvo Trucks. Responsible for site safety, strict policy enforcement, incident reporting, and maintaining calm, clear communication under pressure.

04/2026 – 06/2026
Gent

Who Owns The Zebra (Brigada)

Full-Stack developer (Intern)

Contributed as a full-stack developer on a large-scale project for an international client, building production-ready components with Nuxt and Nuxt UI.

Integrated Sanity as a headless CMS and backend solution to manage structured content efficiently.

Experimented with third-party libraries to implement dynamic interactive features, including Vidstack for custom video playback, Leaflet for real-time geolocation mapping, and WebGL tools for an interactive 3D globe.
